Project Outline

Overview: My capstone project entails the building of a functional restaurant website using an assortment of technologies. The outcome will present information about the restaurant theme, menu, bar, contact information, location, and additional features.

Features: Included Features are as follows, but not limited to only these.

- User Login
- Create Posts
- Admin Posts
- Employee Portal: View Admin posts, communicate about changing shifts, etc
- Admin Portal: Admin level features for adding/removing employees.
 - Schedule posting editing. Same as Employee portal with additional functionality.

Technologies: Not Limited to the following.

- HTML
- CSS
- Javascript
- Jquery
- Java
- PHPMyAdmin
- ThymeLeaf
- Hibernate

To Learn: Not limited to the following.

- Javascript
- Jquery
- Hibernate
- Utility such as Spring Security

Project Tracker: Intend to use Pivotal or Scrumbler.
